KBMD MICRODRIP®

For use in food service facility drain lines, professionally serviced residential drain lines, and other appropriate drain lines. The *MicroDrip*® system injects one dose every 15 minutes to provide a consistent microbial coating of the treated drain line to maximize microbial effectiveness. For use with the *MicroDrip*® dispenser (dispenser is 4.65" wide x 9" high x 3.15" deep).

Application Instructions:

See MicroDrip Instruction sheet. Replace cartridge monthly. As with all injection systems it is recommended that the tubing be monitored for buildup and replaced as needed. Replace batteries as needed.

Storage:

Store at ambient temperature, do not allow to freeze. Empty cartridges should be disposed of in garbage receptacle.

Product Information:

Environmentally friendly
Safe for plumbing lines and septic systems
Contains no corrosive or caustic chemicals
No free enzymes or FOG emulsifiers

Non-flammable
Does not cause pass-through
Multiple strains of naturally occurring bacteria

Precautions:

Do not ingest
